Effect of transient ischemia on free fatty acids and phospholipids in the gerbil brain. Lipid peroxidation as a possible cause of postischemic injury, 323
Phrenic nerve
Electrophysiological evaluation of phrenic nerve function in candidates for diaphragm pacing, 345
Pineal tumor
Cavernous angiomas of the pineal region. Report of two cases, 833
Metastases outside the central nervous system from a presumed pineal germinoma. Case report, 562
Microsurgical anatomy of the pineal region, 205
Primary pineal endodermal sinus tumor with elevated serum and CSF alphafetoprotein levels. Case report, 244
Teratoma in the pineal region in two brothers. Case reports, 239
Pituitary abscess
Pituitary abscess. Case report, 851
Pituitary granuloma
Intrasellar granuloma. Case report, 717
Pituitary tumor
Follow-up study with computerized tomography and clinical evaluation 5 to 10 years after surgery for pituitary adenoma, 144
Giant pituitary cavernous hemangioma. Case report, 124
Pituitary abscess. Case report, 851
Prolactin levels in aggressive pituitary tumors. Letters, 131
Pontine gaze paresis
Pontine gaze paresis due to traumatic craniocervical hyperextension. Report of two cases, 249
Presidential address
A nobleness of purpose. The 1980 AANS presidential address, 137
Pressure-volume relationship
Brain elasticity changes with ventriculomegaly, 173
Physiological features of the pressure-volume function of brain elasticity in man, 166
Prolactin
Follow-up study with computerized tomography and clinical evaluation 5 to 10 years after surgery for pituitary adenoma, 144
Prolactin levels in aggressive pituitary tumors. Letters, 131
Prospective study
Chronic cerebellar stimulation for cerebral palsy. Prospective and double-blind studies, 160
Prostacyclin
Cerebral vasodilation and prostacyclin. The effects of aspirin and meclofenamate *in vitro*, 188
Prostaglandin
Mechanism of cerebral arterial contraction induced by blood constituents, 312
Prothrombin deficiency
Causes of spontaneous subarachnoid hemorrhage in Thai infants and children. A study of 56 patients, 185
Pseudotumor cerebri
Brain elasticity changes with ventriculomegaly, 173

Radiation therapy
Interstitial brachytherapy of primary brain tumors. Preliminary report, 613
Metastases outside the central nervous system from a presumed pineal germinoma. Case report, 562
Treatment of autochthonous rat brain tumors with fractionated radiotherapy. The effects of graded radiation doses and of combined therapy with BCNU or steroids, 68
Treatment of spinal epidural metastases. Randomized prospective comparison of laminectomy and radiotherapy, 741
Radiculopathy
Anterior surgery for cervical disc disease. Part 1: Treatment of lateral cervical disc herniation in 253 cases, 1
Radiofrequency electrocoagulation
Percutaneous sacral rhizotomy for neurogenic detrusor hyperreflexia, 85
Radiofrequency electrode
Thermocouple-monitored cordotomy electrode. Technical note, 266
Radionuclide
Global and regional cerebral blood flow. Noninvasive quantitation in patients with subarachnoid hemorrhage, 153
Interstitial brachytherapy of primary brain tumors. Preliminary report, 613
Randomized control trial
Randomized control trials and the EC-IC arterial anastomosis procedure. Letters, 580
Reticulum-cell sarcoma
Primary reticulum-cell sarcoma (microglioma) of the brain with massive cardiac metastasis. Case report, 714
Rheumatoid arthritis
Odontoid compression of the brain stem in a patient with rheumatoid arthritis. Case report, 841
Rhinorrhea
CSF rhinorrhea from a transclival meningocele demonstrated with metrizamide CT cisternography. Case report, 553
Precise anatomic localization of atraumatic sphenoethmoidal cerebrospinal fluid rhinorrhea by metrizamide CT cisternography, 222
Rhizotomy
Percutaneous sacral rhizotomy for neurogenic detrusor hyperreflexia, 85

Sacral meningocele
Anterior sacral meningocele. Case report, 548
Sagittal sinus
Alterations in ventricular size and intracranial pressure caused by sagittal sinus pathology in man, 656
Saphenous vein
The "bonnet bypass." Case report, 707
Subclavian to middle cerebral artery saphenous vein bypass graft, 465
Schwannoma
Schwannoma of the brain stem. Case report, 121
Seizure
Psychological changes following surgery for tumors in the temporal lobe, 618
Sella turcica tumor
Primary intracranial leiomyosarcoma. Case report with ultrastructural study, 401
Seminoma
Metastases outside the central nervous system from a presumed pineal germinoma. Case report, 562
Serotonin
Bilateral innervation of the cerebral arteries by the superior cervical ganglion in cats, 88
Cerebrovascular reactivity to noradrenaline and serotonin following experimental subarachnoid hemorrhage, 480
Mechanism of cerebral arterial contraction induced by blood constituents, 312
Pain and tryptophan, 44
Shunt
A simple method for distal catheter lengthening of ventriculoatrial shunts. Report of eight cases, 229
Spontaneous opening of large occipital-vertebral artery anastomosis during embolization. Case report, 849
A technique for evaluation of ventricular shunts using Amipaque and computerized tomography, 92
Thermosensitive determination of shunt patency. Letters, 427
Ventriculovesical shunt. Technical note, 858
Shunt infection
Shunt infection. Letters, 133
Skull tumor
Angiography and computerized tomography in the diagnosis of aneurysmal bone cyst of the skull. Case report, 113
Atypical fibrous histiocytoma in the skull of an infant. Case report, 556
An unusual presentation of an oligodendroglioma. Case report, 560
Specialization
Is the dream of a voluntary society still possible? The 1980 Harvey Cushing oration, 279
Sphenoid ridge
Invading meningiomas of the sphenoid ridge, 587
Spinal cord
Craniocervical abnormalities. A comprehensive surgical approach, 444
Spinal cord blood flow
Effect of aminophylline and isoproterenol on spinal cord blood flow after impact injury, 385
Spinal cord compression
Treatment of spinal epidural metastases. Randomized prospective comparison of laminectomy and radiotherapy, 741
The value of decompression for acute experimental spinal cord compression injury, 749
Spinal cord injury
Alternating Horner's syndrome and hyperhidrosis due to dural adhesions following cervical spinal cord injury. Case report, 97
Alternating Horner's syndrome or Bernard's sympathetic irritation. Letters, 866
A comparison of recent studies on the extent of the head and spinal cord injury problem in the United States, S35
Injury to the head and spinal cord: The epidemiological relevance of the medical literature published from 1960 to 1978, S3
The National Head and Spinal Cord Injury Survey: Assessment of some uncertainties affecting the findings, S32
The National Head and Spinal Cord Injury Survey: Design and methodology, S11
The National Head and Spinal Cord Injury Survey: Major findings, S19
Report on the National Head and Spinal Cord Injury Survey: Introduction, S1
Spinal cord injury, experimental
Effect of aminophylline and isoproterenol on spinal cord blood flow after impact injury, 385
The effect of exogenous thyroid hormones on functional recovery of the rat after acute spinal cord compression injury, 381
Spinal cord energy metabolism following compression trauma to the feline spinal cord, 375
Spinal cord tumor
Treatment of spinal epidural metastases. Randomized prospective comparison of laminectomy and radiotherapy, 741
Spinal fusion
Acrylic spinal fusion. A 20-year clinical series and technical note, 606
Anterior surgery for cervical disc disease. Part 1: Treatment of lateral cervical disc herniation in 253 cases, 1
Anterior surgery for cervical disc disease. Part 2: Treatment of

cervical spondylotic myelopathy in 32 cases, 12
Craniocervical abnormalities. A comprehensive surgical approach, 444
Impaction fracture of the lumbar vertebrae with dural tear, 765
Spinal tumor
Acrylic spinal fusion. A 20-year clinical series and technical note, 606
Hydrocephalus and dementia complicating spinal tumor. Case report, 544
Spine
The lateral recess syndrome. A variant of spinal stenosis, 433
Vertical cleft through the superior articular process of the lumbar spine: fracture or anomaly? Case report, 406
Spondylotic dysphagia
Hypertrophic cervical osteophytes causing dysphagia. A review, 338
Spondylotic myelopathy
Anterior surgery for cervical disc disease. Part 2: Treatment of cervical spondylotic myelopathy in 32 cases, 12
STA-MCA anastomosis
The "bonnet bypass." Case report, 707
Subdural bleeding after STA-MCA anastomosis. Letters, 131
Steal phenomenon
Hemodynamic aspects of cerebral arteriovenous malformations, 456
Stenosis
The lateral recess syndrome. A variant of spinal stenosis, 433
Stereotaxic surgery
Computerized three-dimensional stereotaxic removal of small central nervous system lesions in patients, 816
Localization of stereotaxic centers by computerized tomographic scanning. Technical note, 861
The long-term results of stereotaxic surgery and L-dopa therapy in patients with Parkinson's disease. A 10-year follow-up study, 332
New frame for stereotaxic surgery. Technical note, 256
Steroid
Treatment of autochthonous rat brain tumors with fractionated radiotherapy. The effects of graded radiation doses and of combined therapy with BCNU or steroids, 68
Subarachnoid hemorrhage
Bacterial intracranial aneurysms, 633
Causes of spontaneous subarachnoid hemorrhage in Thai infants and children. A study of 56 patients, 185
Cerebral arterial spasm. Letters, 732
Cerebral vasospasm: contractile activity of hemoglobin in isolated canine basilar arteries, 787
Cerebrovascular reactivity to noradrenaline and serotonin following experimental subarachnoid hemorrhage, 480
Effect of experimental subarachnoid hemorrhage on the adrenergic innervation of cerebral arteries, 477
Electrocortical activity in SAH. Letters, 272
Epsilon-aminocaproic acid and recurrent subarachnoid hemorrhage. A clinical trial, 28
Global and regional cerebral blood flow. Noninvasive quantitation in patients with subarachnoid hemorrhage, 153
Myoglobinuria following epsilon-aminocaproic acid (EACA) therapy. Case report, 690
Neonatal intracranial hemorrhage. A clinical and serial computerized tomographic study, 642
Prediction of late ischemic complications after cerebral aneurysm surgery by the intraoperative measurement of cerebral blood flow, 305
Preliminary characterization of vasocontractile activities in erythrocytes, 37
Subdural empyema
Subdural empyema. Letters, 582
Subdural hematoma
Oncotic pressure of subdural fluids, 512
Subdural bleeding after STA-MCA anastomosis. Letters, 131
Subdural hygroma
Oncotic pressure of subdural fluids, 512

The National Head and Spinal Cord Injury Survey: Assessment of some uncertainties affecting the findings, S32
The National Head and Spinal Cord Injury Survey: Design and methodology, S11
The National Head and Spinal Cord Injury Survey: Major findings, S19
Report on the National Head and Spinal Cord Injury Survey: Introduction, S1
Suture
The effects of mechanical immobilization on sutural development in the growing rabbit, 794
Suture damage
Scanning electron micrographic study of vascular lesions caused by microvascular needles and suture, 32
Sweating, *see* Hyperhidrosis
Sympathectomy
Effects of cholinomimetic drugs on sudomotor, metabolic, respiratory, vasomotor, and temperature response in palmar hyperhidrosis, 684
Syringomyelia
Alternating Horner's syndrome and hyperhidrosis due to dural adhesions following cervical spinal cord injury. Case report, 97
Temporal lobe tumor
Psychological changes following surgery for tumors in the temporal lobe, 618
Teratoma
Diastematomyelia associated with teratomas. Report of two cases, 720
Teratoma in the pineal region in two brothers. Case reports, 239
Thailand
Causes of spontaneous subarachnoid hemorrhage in Thai infants and children. A study of 56 patients, 185
Thermistor
Thermosensitive determination of shunt patency. Letters, 427
Thromboendarterectomy
Carotid thromboendarterectomy: a reappraisal. Criteria for patient selection, 776
Thyroid hormone
The effect of exogenous thyroid hormones on functional recovery of the rat after acute spinal cord compression injury, 381
Transient ischemic attack
Effect of transient ischemia on free fatty acids and phospholipids in the gerbil brain. Lipid peroxidation as a possible cause of postischemic injury, 323
Transsphenoidal approach
Intrasellar granuloma. Case report, 717
Traumatic aneurysm
True traumatic aneurysm of the vertebral artery. Case report, 101
Treatment, comparison of
Intracranial arteriovenous malformations. Conservative and surgical treatment, 149
Tremor
The long-term results of stereotaxic surgery and L-dopa therapy in patients with Parkinson's disease. A 10-year follow-up study, 332
Trigeminal nerve
Abnormal impulse generation in focally demyelinated trigeminal roots, 674
Microvascular relationships of the trigeminal nerve. Letters, 425

Trigeminal neuralgia
Abnormal impulse generation in focally demyelinated trigeminal roots, 674
Tryptophan
Pain and tryptophan, 44
Pain and tryptophan. Letters, 731
Tumor marker
Carcinoembryonic antigen in cerebrospinal fluid of adult brain-tumor patients, 627
Tumor model
Computerized three-dimensional stereotaxic removal of small central nervous system lesions in patients, 816
Tumoral cyst
Cysts in malignant gliomas. Identification by computerized tomography, 821
Tumorscope
Computerized three-dimensional stereotaxic removal of small central nervous system lesions in patients, 816

Ulnar nerve
Median and ulnar nerve transections treated with microsurgical interfascicular cable grafting with autogenous sural nerve, 73
Ultrasonography
Anterior sacral meningocele. Case report, 548

Vascular clip
A multipurpose all-angle clip applier for aneurysm surgery. Technical note, 260
Vascular lesion
Scanning electron micrographic study of vascular lesions caused by microvascular needles and suture, 32
Vasoactivity
Dose responses of cerebral arteries of the dog, rabbit, and man to human hemoglobin *in vitro*, 486
Vasodilation
Cerebral vasodilation and prostacyclin. The effects of aspirin and meclofenamate *in vitro*, 188
Vasospasm
Cerebral arterial spasm. Letters, 732
Cerebral vasospasm: contractile activity of hemoglobin in isolated canine basilar arteries, 787
Cerebrovascular reactivity to noradrenaline and serotonin following experimental subarachnoid hemorrhage, 480
Dose responses of cerebral arteries of the dog, rabbit, and man to human hemoglobin *in vitro*, 486
Global and regional cerebral blood flow. Noninvasive quantitation in patients with subarachnoid hemorrhage, 153
Mechanism of cerebral arterial contraction induced by blood constituents, 312
Preliminary characterization of vasocontractile activities in erythrocytes, 37
Vein of Galen
Giant arteriovenous fistula of the vein of Galen in early infancy treated successfully with surgery. Case report, 703
Ventricle
The central canal of the filum terminale in communicating hydrocephalus, 528
Ventriculitis
Percutaneous tunnel ventriculostomy. Summary of 100 procedures, 662
Ventriculoatrial shunt
A simple method for distal catheter lengthening of ventriculoatrial shunts. Report of eight cases, 229
Ventriculostomy
Percutaneous tunnel ventriculostomy. Summary of 100 procedures, 662
Ventriculovesical shunt
Ventriculovesical shunt. Technical note, 858
